PRINT & APPLY LIKE NEVER BEFORE

Do you need a reliable Print & Apply System that can process variable data and applies labels quickly and precisely on any type of product? The XPA 9xx offers excellent print results even at high application speeds and labels your products in real time - in 4",5" or 6" print width.
The most compact Print & Apply System on the market can be flexibly integrated into all production lines. It is capable of meeting any industrial identification challenge and supply chain application.

INTUITIVE DISPLAY

- Large, multi-coloured display with high contrast
- Intuitive, icon-guided navigation with customer-specific "favourites" menu
- Readable with cover open and closed

ROTATABLE DISPLAY

- Completely free rotatable display
- Readable and operable from any position, even when installed upside down
- In industrial environments, can be operated with gloves

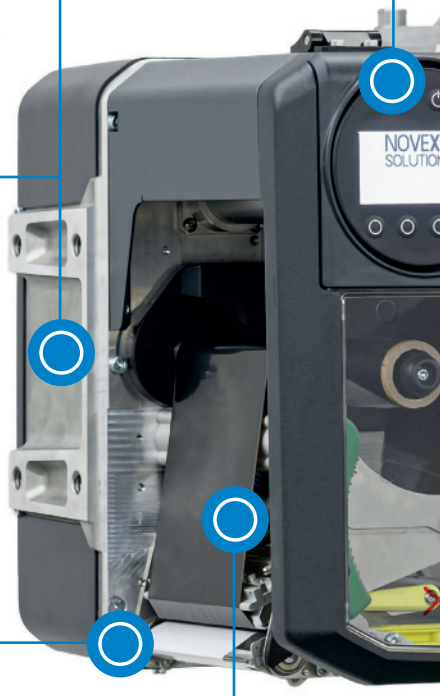

ROBUST AND DURABLE

- High-quality product components such as robust housing with sturdy metal frame
- Strong thread inserts for extra stability
- The design without fan prevents dust admission

EXTRA COMPACT AND FLEXIBLE

- The XPA 9xx is the most compact Print & Apply System on the market with a very small footprint
- Can be mounted in any conceivable position on the production line (top, side, bottom labelling)
- Various mounting possibilities of optional accessories e.g. label unwinder or applicators to perfectly suit your application
- Weighs less than 30 kg with increased durability at the same time

FOR 4", 5" AND 6" PRINT WIDTHS

- For all requirements: The XPA 93x/944 is available for 4" (106 mm), 5" (127mm), and 6" (160mm) print widths
- Up to 185mm label width
- Perfect for labelling products, cartons and pallets

RIBBON SAVE FUNCTION

- The transport of the thermal transfer ribbon stops at areas where the label does not need to be printed
- Lower ribbon consumption
- Reduced costs
- Longer print head life
- Less downtime
- Protects the environment: less waste & chemicals

SMART ACCESS

- The XPA 9xx can be remotely controlled from any PC, mobile device or industrial panel PC
- Enables remote setup, diagnostics and maintenance
- Increased flexibility and maximum user-friendliness

OUTSTANDING PRINT QUALITY

- 300 dpi print resolution ensures perfect print results – even at high application speeds thanks to thermal transfer technology

FAST CHANGE OF MATERIAL

- Particularly quick and easy insertion of label and ribbon material
- Reduces downtimes and therefore increases the production times

EASY MAINTENANCE AND CLEANING

- 100% tool-free maintenance and replacement of wear parts e.g. print head or silicone rollers
- Open print module for easy cleaning

AUTOMATIC SETTINGS

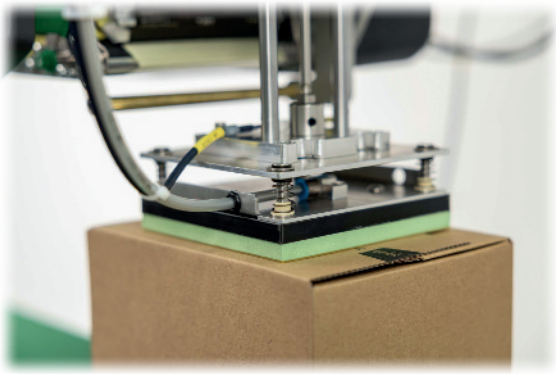

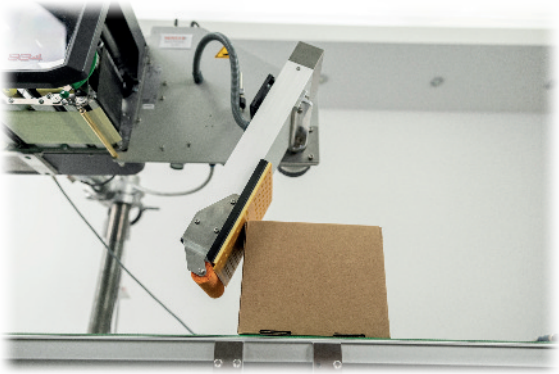

- Continuous adjustment of ribbon and label material tension for best print results
- Automatic setting of print head parameters such as pressure and contrast
