XTO & XLS 204 Labeller

THE SMART WAY FOR PRINTING SMALL CONTENT ON LABELS

The combination of the EIDOS XTO intermittent thermal transfer over-printer and the XLS 204 labeller from NOVEXX Solutions provides a perfect compact Print & Apply solution when it comes to fast printing of small content on labels.

BEST PERFORMANCE

Combine the XTO with its excellent print quality and the XLS Labeller to print small content and to apply labels - reliable, even in high volumes.

BENEFITS

- Printing small content
- Excellent print quality
- High volumes
- High apply speed

This compact Print & Apply Solution fits perfectly for small content on labels such as best before dates, production codes, real time data or barcodes. Therefore it is the right choice for the product labelling process in food, pharmaceutical and personal care industry.

BENEFITS YOU CAN USE

The combination of the XTO 2"ie Thermal Transfer Over-Printer and the XLS 204 labeller provides the perfect compact Print & Apply Solution when it comes to fast printing of small content on labels and applying labels to products.

EXCELLENT PRINT QUALITY

All NOVEXX/EIDOS products guarantee a perfect print result due to its proven print technology. This is especially essential for small images and text like in the food, pharmaceutical and personal care industry.

HIGH OUTPUT

The fast printing with the XTO in combination with a maximum application speed of the XLS provides a fast product labelling process in maximum volume.

COMPACT DESIGN

Due to it´s compact design it is very easy to integrate this solution into a new or existing production line - even in small areas.

EASY SET UP AND OPERATOR HANDLING

The handling and operation of both products is more than easy. The XTO is controlled by the XLS and connected by only one cable. The integrated HMI ensures an easy operation, control and management.

OPTIMISED UPTIME

The XTO includes two significant features to reduce downtimes. The Quick-Ribbon X-Loader with its plug & play mechanism enables an ergonomic and fast ribbon exchange. Also the printhead can be changed within seconds thanks to the integrated Quick-Head X-Changer.

CHOOSE THE RIGHT PRINT & APPLY SOLUTION FOR YOUR DEMAND

NOVEXX Solutions offers two products that meet different requirements when it comes to Print & Apply Solutions. Choose the right one based on your demands.

	XTO + XLS LABELLER	XPA 934 PRINT & APPLY SYSTEM
Typical applications	Product labelling	Box/pallet labelling
Labels to print on	Pre-printed/full colour	Plain or with small pre-print
Typical print area	2-3 lines	Full label print
Label apply process	Direct apply	Direct apply or by applicator
Label apply speed	Up to 70m/min	Up t o 18m/min
Achievable output	~150 labels/min	~ 70 labels/min
Handling	Easy set up and operation	More demanding operation

XTO is the most flexible, efficient and cleanest solution to print small content on labels in comparison to hot stamp or ink jet technologies.
