SEMI-AUTOMATIC

# The Self Seal Tag Applicator

- A single operator can apply around 35 tags per minute using one of these machines, with each tag being accurately placed and correctly dressed onto the product
- The machine operates from a standard power supply and does not require any compressed air, etc. The power consumption is minimal
- An operator can be trained to set-up and operate the machine in 15/20 minutes, including label roll replenishment

## Specification :-

The ALS SST3 will apply Self Seal Tags to CD's and DVD's

Self Seal Tag (SST) is a registered trade name of The Tag Company ([www.tagcompany.com](http://www.tagcompany.com)) ALS and the Tag Company are business partners and work together to provide effective security protection systems for major retailers.

ALS is a leading European supplier and manufacturer of high-quality, competitively priced labelling systems, consumables and accessories. In addition to the ALS SST3 the company offers a comprehensive range of label applicators, print & apply systems and thermal transfer printers, to meet labelling requirements across an extensive range of industries and applications.
